

# Porta

# Porta

This light shiny and rich looking flatwoven quality is in our Textafoam Timeless Collection. A collection that represents all of our creative essentials.

Porta is woven on an air jet loom, piece dyed and laminated with a non-woven backing. This backing provides a thick and soft handfeel.

This 100% polyester textile is finished with a damp and dirt prevented treatment. Resulting in an optimal cleanability and resistancy to moisture.

Machine-washable at 30 degrees\* and suitable for both fitted and loose fitting upholstery, Porta is a great choice for all types of sofas, beds and chairs.

Kindly note that during use a certain wooliness or hairiness may appear, this has no further influence on the durability of this fabric and can be taken away with a pilling machine.

Available from stock in wide range of commercial, trendy and contemporary colours.

- Dirt and damp prevention treatment applied.
- We recommend to wash the cover inside out and immediately place the cover back to the piece of furniture, slightly damp, after washing.
- Please note that during washing the damp- and dirt prevented treatment will disappear faster.

***Textafoam originals** Established in 1970, this Dutch family business brings together craftsmen in textiles and furniture design to build an unrivalled portfolio in upholstery fabrics that meets buyer's needs every time. Featuring a wide colour range, ultimate value for money and excellent reliability in the supply chain.*
